

VVS North Platte Dart League – Spot Dart Handicapping

At the beginning of the game, the dartboard automatically removes a number of darts from the better player. The number of darts taken away is determined by the weaker player's handicap. **It is possible that the better player may not shoot for the first 2 rounds of the game.**

Formula: (Weaker Player's Spot Darts) – (Stronger Player's Spot Darts) = (Number of darts removed from the Stronger Player)

Start the League Match as normal and watch closely as the machine does its thing. The number of darts you get to throw in the Spot Rounds are indicated in the Darts Thrown Box by a horizontal dart. **Darts you lose because of the Spot are indicated by HCP.**

If it shows HCP-HCP-HCP the machine automatically cycles to the next player. If it shows HCP-HCP and 1 dart you will get to throw 1 dart and then the machine cycles to the next player. If it shows HCP and 2 darts you will get to throw 2 darts and then the machine cycles to the next player. If it shows 3 darts you will get to throw 3 darts and the machine will cycle to the next player. This could go on for 2 complete rounds before all players are throwing their normal 3 darts per round.

Kim will have the Spot Darts programmed in. If you are bringing in a player who is not on your roster you will need to Insert Their Name and Spot Darts very similar to the way you adjusted handicaps in the past. **Players will shoot with their pre-established Spot Darts for their 1st 3 appearances.**

Beginning with their 4th appearance Spot Darts will be based on their Current Average.

X01 Spot Darts: Players New to VVS System – Male = 2 X01 SD. Female = 4 X01SD

23.0 & above = 0 SD. 20.0–22.99 = 1 SD. 18.0–19.99 = 2 SD. 17.0–17.99 = 3 SD. 15.0–16.99 = 4 SD. 14.0–14.99 = 5 SD. 13.99 & below = 6 SD

Cricket Spot Darts: Players New to VVS System – Male = 3 Cricket SD. Female = 4 Cricket SD

2.50 & above = 0 SD. 2.10–2.49 = 1 SD. 1.90–2.09 = 2 SD. 1.70–1.89 = 3 SD. 1.50–1.69 = 4 SD. 1.30–1.49 = 5 SD. 1.29 & below = 6 SD

Note: The Spot Darts programmed by VVS are listed below. **They are not necessarily the Spot darts a player will shoot at the dart machine.**

The player's spot darts are calculated in relation to all other players in that game.

	x01 SD	Cric SD		x01 SD	Cric SD		x01 SD	Cric SD

VVS Dart League “Guide To Editing Player Spot Darts On League Night”

- ***Will we have to do any calculations or special league set up to use Spot Darts on league night?***
No. The league has been set up by VVS so that the correct Spot Darts for each player to use will automatically appear on the team menu. A couple of situations may arise where it will be necessary for captains to edit a player Spot Darts before starting league play. The machine calculates Spot Darts to start each game and makes the adjustment for you. Obviously, we were only able to set up for players who were listed on your registration form.
- ***During the first 3 weeks of the season, if all of the players in a match are listed on our roster on the machine what is our biggest problem?***
The machine is loaded and ready to go, you just need to worry about the beer temperature.
- ***Beginning Week 4, If all of the players in a match are listed on our roster on the machine and have played at least 9 games what is our biggest problem?***
The machine is loaded and ready to go, you just need to worry about the beer temperature.
- ***Is it acceptable to use a player who was not listed on our team roster during the first 3 weeks of the season?***
Yes. You will need to edit the player name & Spot Darts at the machine.
- ***Beginning Week 4 through the end of the season can we use a player who has not yet played this season?***
Yes. You will need to edit the player name & Spot Darts at the machine.
- ***The rules state that a player will use his/ her pre-established Spot Darts until they have played 9 games this season. Beginning Week 4, Can we use a sub that has played only once or twice this season?***
Yes. The name and correct Spot Darts will appear on your sub list (if loaded previously by Kim).
You will need to edit the player name & Spot Darts at the machine if Kim did not load them previously.
- ***How do we know what a player’s Spot Darts should be?***
Check the VVS North Platte Spot Dart List at www.vvsleagues.com or call the VVS Office.

- ***What is the procedure for editing player averages at the machine on league night?***

Black Widow:

Set your line up for the Home Team. Home Team adds Subs at this time, if needed.

Click “ADJ HCP” (adjust handicap). A blue cursor will appear in the Handicap Column to the right of the Player Names. The Handicap Column has a row for Cricket and a row for X01.

Clicking “Choose Player” will move the blue cursor from player to player and from Cricket to X01.

When the blue cursor is at the correct player, select “ADJ HCP”. A Cricket screen will appear for that player. “Select” moves the blue cursor left and right. “Adjust” increases the number. When the correct Cricket Spot Darts are showing, Click “Accept”.

That will return you to the Home Team Screen and the proper Cricket Spot Darts will show up in the Handicap Column.

Click “Choose Player” until you are at X01 handicap.

Choose “ADJ HCP”. An X01 screen will appear for that player. When correct X01 Spot Darts for that player is showing, click “Accept”.

That will return you to the Home Team Screen and the proper X01 Spot Darts will show up in the Handicap Column.

When all player names and correct averages are shown, click “Accept”. Click “Accept” again.

Now choose Visiting Team and repeat the process (if necessary).

G2:

Choose Home Team. Player Names and Averages are listed.

Instructions at bottom of team box say: **Press Yellow (Arrow Up) Button to Modify a player.**

Click “ADJ HCP” (adjust handicap). A blue cursor will appear in the Handicap Column to the right of the Player Names. The Handicap Column has a row for Cricket and a row for X01.

Clicking “Choose Player” will move the blue cursor from player to player and from Cricket to X01.

When the blue cursor is at the correct player, select “ADJ HCP”. A Cricket screen will appear for that player.

“Select” moves the blue cursor left and right. “Adjust” increases the number. When the correct Cricket Spot Darts are showing, Click “Accept”.

That will return you to the Home Team Screen and the proper Cricket Spot Darts will show up in the Handicap Column.

Click “Choose Player” until you are at X01 handicap.

Choose “ADJ HCP”. An X01 screen will appear for that player. When correct X01 Spot Darts for that player are showing, click “Accept”.

That will return you to the Home Team Screen and the proper X01 Spot Darts will show up in the Handicap Column.

When all player names and correct averages are shown, click “Accept”. Click “Accept” again.

Now choose Visiting Team and repeat the process (if necessary).

- ***Who can we call if we are having a hard time getting this set up on league night?***
Give the VVS “League Rep” a call at 1-800-662-2924 and he will get right back with you to assist.
